EXPERIENCE

Web Developer

Aug2023 - Present (Full-Time)

Mehran Sarwary IT Service Company

- I work collaboratively with a development team to design and develop secure, scalable web applications using modern front-end and back-end technologies. I build and deploy APIs connected to MySQL databases and ensure proper system integration and reliable performance. I am responsible for system maintenance and deployment, manage projects through cPanel, and handle technical problem-solving, bug fixing, and performance optimization.
- I have worked on Angular and Laravel-based platforms, including an Exchange Management System and the Doctor-AF healthcare platform. I strongly focus on security, scalability, user experience, and overall system performance

Front-End Intern(Online)

Dec 2024 - jan 2025

Cognifyz Technologies, India

- Worked remotely as a Front-End Development Intern, demonstrating dedication, coordination skills, and effective communication.
- Focused on attention to detail and exhibited a strong desire for continuous learning and improvement in a virtual environment.

Web Development Intern

March - June 2024

Ministry of Higher Education, Kabul Afghanistan

- Developed a responsive website for the Ministry of Higher Education using Angular and MySQL, enhancing educational access and system efficiency.
- Created a user-friendly, mobile-optimized interface with full cross-browser compatibility to improve accessibility and user experience.

Frontend development Intern

2023- 2024

Mehran Sarwary IT Service Company

- Developed and maintained a web application using Angular, ensuring a responsive and user-friendly interface.
